------------------	---	-----------------	---	------------------	---	------------------	---

Target Search Keyword	Market / Device	Position	Movement	Ranking Landing URL
Software	ET/en · Desktop	> 100	—	N/A
Start	ET/en · Desktop	> 100	—	N/A
digital	ET/en · Desktop	> 100	—	N/A
product	ET/en · Desktop	> 100	—	N/A

4. Competitor Visibility Benchmarks

No competitor domains configured for this project.

5. Prioritized SEO Recommendations

No pending recommendations found.

6. Phased Implementation Roadmap

Phase 1: Immediate Critical Fixes (Week 1–2)

- **Action:** Resolve 1 broken links (4xx/5xx HTTP errors)

Impact: Prevents search bots from encountering dead ends and preserves link equity.

Phase 2: On-Page & Technical Optimization (Week 3–4)

- **Action:** Review and refresh on-page keyword density and header tags.

Impact: Consistent snippet relevance.

Phase 3: Search Visibility & Content Expansion (Month 2+)

- **Action:** Target 4 tracked keywords not currently in Top 100

Impact: Build dedicated content clusters to capture organic search share on Google Ethiopia.

Report compiled exclusively for Doxa. Data verified from search engine observations on google.com.et.
